

SCS PSP Hybrid Program Course Summary

High School

Track 1(9th/10th grade)

Science

Apologia-Biology

Apologia's award-winning, college-prep biology course, provides a detailed introduction to the methods and concepts of general biology. It also provides a complete survey of the five kingdoms in Creation. Students who take and understand this course will be very well-prepared for a tough university biology course.

Math

Saxon Geometry

Perspective, space, and dimension associated with practical and axiomatic geometry. Students learn how to apply and calculate measurements of lengths, heights, circumference, areas, and volumes. Geometry introduces trigonometry and allows students to work with transformations. Students will use logic to create proofs and constructions and will work with key geometry theorems and proofs.

History/Literature

Notgrass-Exploring America

Providing students with an overview of American history from Columbus to the present day, it is US history from a Christian perspective. It provides one full-year of credit in American history, English (literature and composition), and Bible.
