

SOUTHLANDS CHRISTIAN SCHOOLS

Hybrid Program

Southlands Christian PSP Hybrid Program seeks to provide for the modern family's needs by offering a balance of the direction and instruction that comes with a traditional Christian school with the flexibility and control of homeschooling. Students and courses will be led by a qualified and passionate teacher for 1-2 days, while the remaining days of the week are finished at home supported by you.

Depending on the need and desire, courses can be taken as a full schedule of core classes or individual courses to fill in for subjects that may be too challenging for you and your student at home. The Hybrid program is an excellent alternative for those who want to avoid public school but private school may not be attainable.
