

## SCS PSP Hybrid Program Course Summary

### High School

#### Track 2 (11<sup>th</sup>/12<sup>th</sup> grade)

### Science

### Apologia-Chemistry

*Our award-winning high school chemistry course is now better than ever! This revised edition offers more in-depth discussions and explanations of concepts, as well as biographical sketches of Christian scientists who have made a difference in the field while giving the glory to God.*

### Math

### BJU Press Algebra 2

*Go beyond simply teaching algebra concepts and help you child understand how he or she can use math (specifically algebra) to glorify God and serve others. In the Algebra 2 educational materials from BJU Press, your child will learn concepts such as linear, quadratic, polynomial, radical, and rational functions, exponential and logarithmic functions, and probability and statistics. Complex numbers are also covered throughout the text. Additionally, your child will learn how each concept can be applied to real-life situations. Each lesson contains additional cumulative review exercises strategically designed to help students retain information from previous lessons as well as thorough development of key concepts and detailed examples to promote student comprehension.*

### History/Literature

### Notgrass-Exploring World History

*World history high school curriculum. It provides one full-year of credit in American history, English (literature and composition), and Bible. From Creation to the 21st century, Exploring World History presents ancient, medieval, and modern history from the perspective of faith in God and respect for His Word. It offers a thorough survey of Western civilization with significant coverage of Latin America, Africa, and Asia.*
